

NEW BLOW AT HEARST

Attached in the Democratic Weekly Political Letter.

BLAMED FOR PARTY DEFEAT

Nomination of Culberson or Williams for President is Urged in Article Sent Out to Party Papers by the Secretary of the Congressional Committee—His Argument.

The latest issue of a weekly political letter, which is sent out under the apparent sanction of the Democratic Congressional Committee, by the committee's secretary, Charles A. Edwards, and which goes to the Democratic weekly newspapers of the country, makes an attack on William Randolph Hearst.

After telling of the troubles that overtook the Democracy in the recent campaign, Secretary Edwards speaks of the independent voters and the part they played in the loss of the House of Representatives to the Democrats.

"The man who is primarily responsible for this condition, not only in New York, but in Illinois and California, is one William Randolph Hearst. His defeat in New York, and the election of every other Democratic candidate on the ticket on which he ran, is proof positive that the people do not want that kind of independence which throws down the nominees of the party not calculated to do what he advocates.

"Mr. Hearst has placed himself outside the pale of regularity in the Democratic party, and he must take the consequences of his defeat. While Mr. Hearst has done as much as any other human being to bring the trusts to account, show up their iniquities, and do it unselfishly, yet he allowed the millions of his so-called independence League party to injure the Democratic party that could have accomplished things, and he refused to call off his dogs of war."

The writer invites the national Democracy to "nominate" in 1908 a man like Charles A. Culberson, of Texas, or John Sharp Williams, of Mississippi, for the Presidency, and who will have the reputation of being a man who will not be overborne by Tammany or by the trusts.

Mr. Edwards is clerk to the minority organization of the House of Representatives, of which John Sharp Williams is leader. The letter was sent out under the letterhead of the Democratic Congressional Committee.

The weekly letter is said to have been the idea originally of Mr. Hearst, and was financed by him until after the Democratic national convention in 1904, when it was taken over by Mr. Hearst.

ALLEN TO HOLD HIS PLACE.

Has No Intention of Resigning as Commissioner of Patents.

Frederick I. Allen, Commissioner of Patents, last evening denied that he was about to tender his resignation of that office.

"The report is not correct," said he. "I certainly have no intention of resigning at the present time, and I have no idea as to how or where the rumor started."

Commissioner Allen has held his present office since 1901, having been appointed by President McKinley to succeed Commissioner Duell, and continued in office by President Roosevelt.

His home is at Auburn, N. Y., and it has always been understood that he has powerful political backing, including both Senators Platt and Dewey, as well as other influences in the President's own State.

It is a well-known fact that for a long time the Patent Office has been away behind in its work; but the recent report of Commissioner Allen, issued the other day, shows that he has made extraordinary efforts to bring the files up to date. While a couple of months ago the office was behind to the extent of 2,000 cases, the report cites that about 4,000 of these have been completed, and that as many as 1,500 were brought up to date in one week recently.

AUTOISTS CONTRIBUTE FUNDS.

Prepare to Fight Glen Echo Arrests Made by Collins.

At the office of Robert B. Caverly, chairman of the subscription committee of the Automobile Protective Association, it was said yesterday that contributions to the cause are coming in with most gratifying celerity and in generous amounts.

The protective association was recently formed on the initiative of the Automobile Club of Washington, for the purpose of securing funds to fight the cases of automobilists who have been arrested and fined, unjustly, many of them have claimed, in the village of Glen Echo and at other nearby localities.

The case of Col. M. A. Winter, fined \$50 and costs by Mayor Barrett, of Glen Echo, has been made a test case, and will shortly come up in the County Court of Montgomery County at Rockville. The autoists were arrested by Marshal Collins.

ITALY BUYS FOREIGN STEEL

Government Employees at Terni Strike as the Result.

Son of Italian Premier Visits in Washington—Is Accused by People of Jobbing with Trust.

American-made armor steel for the Italian navy has raised a riot and produced a strike among the 5,000 employees of the Terni steel works, Milan, Italy. It is charged by the socialist and labor element of Italy that Dr. Federico Gioletti, son of the Italian premier, who is at present visiting this country, is here in the interest of the Ansaldo-Armstrong Company, and not, as claimed by him, as a metallurgical expert.

At the Italian Embassy it was stated last night that Dr. Gioletti is visiting America, accompanied by his wife, as a private citizen and tourist; that he is not the agent of any private enterprise, and that he has not visited the Midvale Steel Company's works near Philadelphia.

"It was a matter of business and convenience with the Italian government," said the naval attaché of the Italian Embassy, "that determined my government to award the contract for the armor to the Italian firm."

Dr. Gioletti, son of the Italian premier, is charged with graft and jobbery, and of being in the employ of non-Italian interests, and opposition papers claim that Parliament may make an investigation. Dr. Gioletti, son of the Italian premier, is charged with graft and jobbery, and of being in the employ of non-Italian interests, and opposition papers claim that Parliament may make an investigation.

It was also announced at the Embassy that Ambassador Mayor des Planches is expected to return to the embassy Friday.

Blizzard Raging in Kansas.

Topeka, Kans., Nov. 18.—The worst blizzard in ten years is raging to-night in Western Kansas and Eastern Colorado. It is snowing and blowing, rendering walking almost impossible. Heavy losses of live stock are reported from New Mexico and Colorado.

England cold will be felt at the Middle Atlantic coast, on the East Gulf northwest, on the West Gulf northwesterly, and on the Upper Gulf northwesterly.

European ports southwest to west winds, the Grand Banks.
